

Airbender Gliders with Yani Foreman

Outdoor Activity:

Get outside and Fly that Glider! Notice how the wind moves your glider.

Take a video or picture of your kite and send it to info@hobt.org or use the #ArtfulAdvocates hashtag.

Call to Action:

Think about how the wind is used to make the Glider fly. To fly our gliders we need clean air! Here are some simple ways you can improve air quality:

- Drive less. Walk, bike, carpool or take public transit instead of driving
- Use less electricity. Burning coal or natural gas for energy results in air emissions, so reducing energy use is an important way to improve air quality.
- Reduce, reuse and recycle.
